About Us

Mediflex Industries PVT LTD is a pioneering indigenous medical gloves manufacturing and distribution company located at Warehouse Bay 4, Plot 767 Idu Industrial District, FCT, Abuja. Our facility is approved by the National Agency for Food and Drug Administration and Control (NAFDAC), ensuring compliance with both local and international standards. We focus on the manufacturing, packaging, and distribution of medical gloves and consumables in Nigeria. We take pride in being the pioneers of medical and surgical glove production in Africa. All our products are supplied to hospitals, healthcare facilities, and institutions nationwide.

To meet the diverse needs of healthcare professionals, we offer an extensive range of high-quality medical gloves under the Mediflex and Ryhenz brands, ranging from examination and surgical gloves in Latex and Nitrile, all available in powdered and powder-free types. Additionally, we provide surgical gowns, oxygen masks, shoe covers, under pads, nurse caps, facemasks and other essential medical supplies and equipment.

About Us

This comprehensive product and equipment line ensures that healthcare providers have access to the necessary tools to maintain high standards of care and patient safety.

Our locally manufactured Mediflex gloves, along with medical, laboratory, and surgical consumables and equipment, ensure a dependable supply chain. This reliability is particularly crucial during health crisis when borders might be closed, as it safeguards public health. By producing these essential items within Nigeria, we contribute to the stability and resilience of the healthcare system, ensuring that critical supplies are always available when needed.

Additionally, manufacturing in Nigeria allows us to offer competitive prices without compromising on quality, maximizing your budgetary

allocations. Our NAFDAC certification underscores our commitment to stringent regulatory standards for safety and efficacy. With a diverse selection of glove types, we cater to various healthcare, hospitals, food, beauty, and industrial settings, ensuring that our products meet your specific needs. Customers can rely on us for consistent supply and dependable product performance, backed by our commitment to quality assurance. Ryhenz Integrated Ventures Limited, a subsidiary and sister company of Mediflex Industries PVT LTD, shares these objectives and plays a crucial role in selling and distributing medical gloves and consumables across Nigeria, further enhancing our reach and reliability.

OUR VISION AND MISSION

MISSION

Our mission is to provide affordable and readily available medical consumables using the latest technology and materials.

VISION

Our vision is to build a global brand of high-quality medical products known for innovation, reliability, excellence and timely delivery.

OUR CORE VALUES

Mediflex is your trusted provider of high-quality medical consumables. At Mediflex, we are committed to meeting the evolving needs of healthcare professionals and patients around the world.

1

INNOVATION

We constantly strive to innovate and improve our products and processes. Our dedicated research and development team works tirelessly to integrate the latest technological advancements and medical research into our products, ensuring that we stay ahead of industry trends and provide cutting-edge solutions for healthcare providers.

2

RELIABILITY

We are committed to delivering high-quality medical consumables that our customers can rely on. Consistency is key in healthcare, and we ensure that every product meets stringent quality standards. Our robust quality control processes and rigorous testing protocols guarantee that our consumables perform reliably in critical medical situations.

3

EXCELLENCE

We hold ourselves to the highest standards of excellence in everything that we do. From the sourcing of raw materials to the final packaging and distribution, every step of our production process is meticulously managed to ensure superior quality. Our team is composed of highly skilled professionals who share a passion for excellence and a commitment to continuous improvement.

TIMELINESS

We understand the critical importance of timely delivery in the healthcare industry. Our efficient logistics and supply chain management systems ensure that our products reach our customers when they need them the most. We are committed to meeting deadlines and providing prompt service to support the continuous and effective operation of healthcare facilities.

4

ACCESSIBILITY

We believe that everyone should have access to high-quality medical consumables, regardless of their location or financial situation. By optimizing our supply chain and leveraging local manufacturing capabilities, we are able to reduce costs and make our products more affordable. Our extensive distribution network ensures that even the most remote healthcare facilities can benefit from our products.

5

SUSTAINABILITY

We are committed to minimizing our impact on the environment and promoting sustainable practices. Our manufacturing processes are designed to be energy-efficient and environmentally friendly. We prioritize the use of recyclable materials and implement waste reduction strategies throughout our operations. Our sustainability initiatives are an integral part of our mission to contribute positively to society and the planet.

6

7

INTEGRITY

We operate with integrity and honesty in all of our business dealings. Transparency, ethical practices, and accountability are the cornerstones of our corporate culture. We build trust with our customers, partners, and employees by upholding the highest ethical standards and consistently delivering on our promises.

8

TEAMWORK

We value collaboration and teamwork, and we believe that together, we can achieve more. Our success is built on the collective effort of our diverse and talented team. We foster a collaborative work environment where ideas are shared freely, and everyone is encouraged to contribute to our common goals. Through teamwork, we drive innovation and achieve operational excellence.

9

CUSTOMER-CENTRICITY

We prioritize our customers' needs and strive to provide them with the best possible products and services. Understanding the unique challenges faced by healthcare professionals, we work closely with our customers to develop tailored solutions that meet their specific requirements. Our customer support team is always ready to assist, ensuring a seamless experience from order placement to product delivery.

ABOUT THE MANAGING DIRECTOR/CEO

Henry Chinedu Nnaji is an accomplished healthcare professional, the CEO and Managing Director of Mediflex Industries PVT LTD and Ryhenz Integrated Ventures Limited, both prominent entities in the Nigerian health sector. These organizations specialize in the manufacturing and distribution of medical gloves, medical consumables, and equipment, playing a crucial role in enhancing healthcare services. Mediflex Industries is notably the first company in Nigeria to initiate the production of medical gloves within the country, marking a significant milestone in the local healthcare manufacturing industry.

With a B.Sc. in Nursing from Ternopil State Medical University, Ukraine, and a Diploma in General Nursing from Enugu State University Teaching Hospital, Park Lane, Henry Chinedu Nnaji possesses a solid foundation in Nursing and healthcare practices. He has further augmented his expertise with certifications from prestigious institutions, including the University of

ABOUT MANAGING DIRECTOR/CEO

Pennsylvania and the University of Maryland. His professional journey includes significant contributions to medical research, cancer screening and general healthcare projects. He has worked with the reputable Institute of Human Virology (IHVN) as a Research Officer in Strategic Timing for Anti-Retroviral Treatment (STAT) study, where he actively participated in a randomized clinical trial of Anti-Retroviral Treatment (ART), approved by the World Health Organization (WHO) and carried out in thirteen (13) countries, including Nigeria. This profound research defined the guidelines and timing for initiating Anti-Retroviral treatment among HIV patients globally. As a key figure in the healthcare industry, Henry continues to drive innovation, quality, and accessibility in medical consumables and equipment manufacturing, making him an invaluable asset in the health sector.

Currently, Henry is pursuing an MBA (Masters in Business Administration) in the University of Nigeria, Nsukka, to further enhance his leadership and business management skills. In addition to his role at Mediflex Industries, he is also the Managing Director of Ryhenz Integrated Ventures Limited, which was incorporated in 2018. Ryhenz Integrated Ventures Limited is the first company and the subsidiary company with the same objectives, selling and distributing medical consumables and equipment in Nigeria. His dual leadership roles in these companies underscore his commitment to advancing healthcare standards and accessibility across the nation.

OUR PRODUCTS

MEDIFLEX & RYHENZ GLOVES

OUR PRODUCTS MEDIFLEX & RYHENZ GLOVES

1. Mediflex Powdered Natural Latex Examination Gloves

Experience superior protection and comfort with our powdered natural latex examination gloves. Designed for high sensitivity and flexibility, these gloves ensure optimal performance in medical settings.

2. Mediflex Powder-Free Natural Latex Examination Gloves

Get the perfect blend of comfort and safety with our powder-free natural latex examination gloves. These gloves are ideal for those with sensitive skin, providing excellent tactile sensitivity without the mess of powder.

3. Mediflex Powdered Nitrile Examination Gloves

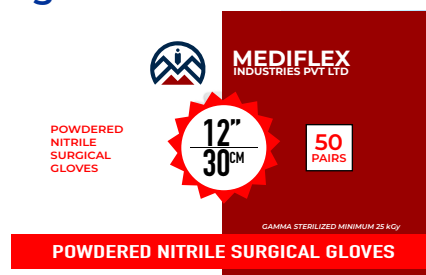

Combining strength and flexibility, our powdered nitrile examination gloves offer superior protection and comfort. Perfect for high-risk environments, these gloves ensure a secure fit and enhanced dexterity.

4. Mediflex Powder-Free Nitrile Examination Gloves

For those needing durable and reliable protection, our powder-free nitrile examination gloves are the ideal choice. These gloves offer excellent puncture resistance and are suitable for individuals with latex allergies.

5. Mediflex Powdered Nitrile Surgical Gloves

OUR PRODUCTS MEDIFLEX & RYHENZ GLOVES

Achieve the highest standards of safety and performance with our powdered nitrile surgical gloves. Designed for precision and comfort, these gloves provide excellent barrier protection in surgical environments.

6. Mediflex Powder-Free Natural Latex Surgical Gloves

Our powder-free natural latex surgical gloves offer exceptional dexterity and sensitivity for surgical procedures and are specially formulated for In Vitro Fertilization (IVF) procedures. With a snug fit and high elasticity, these gloves ensure comfort during prolonged use.

7. Mediflex Powder-Free Nitrile Surgical Gloves

Experience unmatched protection with our powder-free nitrile surgical gloves. These gloves are

designed for superior strength and puncture resistance, making them ideal for demanding surgical tasks. Our Mediflex Powder-Free Nitrile Surgical Gloves are also best suited for IVF procedures.

8. Mediflex Powdered Natural Latex Surgical Gloves

Ensure top-notch performance with our powdered natural latex surgical gloves. These gloves provide a comfortable fit and excellent tactile sensitivity, making them a trusted choice for surgical professionals.

9. Ryhenz Powder-Free Nitrile Examination Gloves

Our Ryhenz powder-free nitrile examination gloves offer robust protection and comfort. Designed for sensitive skin, these gloves

MEDIFLEX

INTRODUCING FIRST TIME IN NIGERIA

LIGHTLY POWDERED WHITE NITRILE EXAMINATION GLOVES

ZERO CARBOMATES
SULPHUR
PROTEIN

EASY TO WEAR

NO ODOUR
YELLOWING
IRRITATION

NON ALLERGIC

HIGH SENSITIVITY

HIGHLY FLEXIBLE

HIGHER SHELF LIFE

LESS SWEAT WHILE WEARING

Advantages of using Powdered NITRILE Gloves (NBR14) vis-à-vis Powdered LATEX Gloves

1. POWDERED NITRILE Gloves (NBR14) do not contain ACCELERATORS and SULPHUR unlike the Natural LATEX gloves, thus eliminating Type IV allergies. Natural LATEX Gloves can cause Type IV allergies due to the presence of Accelerators and Sulphur.
2. POWDERED NITRILE Gloves (NBR14) do not contain PROTEIN, thus eliminating protein allergies. Protein allergies can take place during the usage of Natural POWDERED LATEX Gloves, as PROTEIN content is high in POWDERED LATEX Gloves.
3. Though the POWDERED NITRILE Gloves (NBR14) are thinner and lighter in weight compared to LATEX Gloves ; NITRILE Gloves are much stronger and more durable in comparison to the LATEX Gloves which tears easily during donning and with prolonged usage.
4. POWDERED NITRILE Gloves (NBR14) do not contain any fillers (Calcium Carbonate) unlike LATEX Gloves. Fillers are introduced into the latex compound to reduce costs which do not give a comfortable feeling during usage.
5. POWDERED NITRILE Gloves (NBR14) are very comfortable to don and sweats less compared to the LATEX Gloves.
6. POWDERED NITRILE Gloves (NBR14) have longer shelf life compared to Natural LATEX Gloves. Further, degradation of LATEX Gloves is much quicker when left exposed to the atmosphere.
7. POWDERED NITRILE Gloves (NBR14) do not change color during usage due to the absence of Accelerators unlike Natural LATEX Gloves, which turn yellowish at various areas during usage.
8. POWDERED NITRILE Gloves (NBR14) does not have any odour compared to Natural LATEX Gloves.
9. POWDERED NITRILE Gloves (NBR14) is extremely comfortable during use compared to LATEX Gloves.
